## 3 Review of Documents of Conformity

According to European Standard of EN50581: 2012, the manufacturer should collect supplier declarations and/or contractual agreements, and/or material declarations and/or analytical test results from all suppliers. As per Huawei's requirements of material compliance, all suppliers should sign *Quality and Environment Assurance Agreement* and *Indemnity Agreement for Quality and Environment Problems of Supplier's Materials* and/or provide *Declaration of Non-use of Restricted Substances* which declare suppliers' products meet Huawei's environmental requirement, including RoHS requirements, REACH requirements, packaging requirements, battery requirements and other Huawei's special requirements, and provide MCD (Material Composition Declaration) and the test reports of high-risk materials to prove that their products comply with the requirements of Huawei.

In the process of environmental compliance evaluation, all suppliers' documents were evaluated according to Huawei's requirements, and all results were described in table below.

9.1.5 WEEE 3R Requirements

As per WEEE Directive (2012/19/EU), all products sold in EU should comply with the requirements of recovery, recycling and re-use (3R) for their design. Detailed requirements for 3R are described in table below.

Table 14 Requirements of WEEE 3R for Products

Category No.	WEEE Category	Rate of Recovery	Rate of Reuse & Recycling
1	Temperature exchange equipment	85%	80%
2	Screens, monitors, and equipment containing screens having a surface greater than 100 cm <sup>2</sup>	80%	70%
3	Lamps	80%	80%
4	<b>Large equipment</b>	<b>85%</b>	<b>80%</b>
5	Small equipment	75%	55%
6	Small IT and telecommunication equipment (no external dimension more than 50 cm)	75%	55%

### 9.1.6 WEEE 3R Definition

According to directive 2012/19/EU (WEEE), Reuse, Recycling & Recovery Rate using in the report are calculated as following formulas.

$$\text{Recovery Rate (\%)} = \frac{\text{Reuse \& Recycling Weight} + \text{Energy Recovery Weight}}{\text{Product Total Weight}} \times 100\%$$

$$\text{Reuse \& Recycling Rate (\%)} = \frac{\text{Reuse \& Recycling Weight}}{\text{Product Total Weight}} \times 100\%$$

Remark: Total weight of the product includes the main product and accessories weight.

## 9.2 WEEE Label Evaluation

### 9.2.1 WEEE Label Requirements

As per the requirements of WEEE directive (2012/19/EU), producer is committed to marking all obligated EEE put on EU market with the crossed-out wheeled bin symbol, and the WEEE symbol should meet the requirements of EU standard EN50419: 2005. According to Standard EN50419: 2005, the WEEE symbol should meet the below requirements.

- (1) The symbol should be printed on the product. In special circumstances, the label can be marked on the package and instruction if it cannot be marked on the product surface for its size.
- (2) The symbol must be printed visibly, legibly and indelibly.
- (3) The dimensional relationship should meet that (Figure 2):
  - (a) The symbol should consist of a solid bar, the height of which equals “h” and the width of which equals 1.2a (a is the height of the body of crossed-out wheeled bin).
  - (b) The height (h) of the bar shall be the greater of 0.3a or 1mm.
  - (c) The bar should only be used in conjunction with the crossed-out wheeled bin.
  - (d) The bar should not contain any text or any kind of additional information.

Figure 2 WEEE Symbol Requirements

9.2.2 Conclusion of WEEE Label Evaluation

As per the WEEE label on the product, the label was affixed on the product and the label passed the label test before its sales. From the WEEE label on product, the below evaluation results can be gotten in table below.

Table 15 Results of WEEE Label Evaluation

No.	Label Requirements	Actual Status for Evaluated Product	Results
(a)	Symbol Position	Product, package and instruction	Yes
(b)	Size	The "a" was more than 3.333mm and the "h" was more than 1mm on label of product.	Yes
(c)	Visibly	The label passed the label test for visibly, legibly and indelibly.	Yes
(d)	Legibly		Yes
(e)	Indelibly		Yes
